At Sperling & Co, "noble" means more than just exclusive. It signifies something refined, carefully selected, delicately handled, and often rare. Each cut of meat is personally handpicked by the evening's butcher, with a keen sense for flavor, character, and quality. Here, classic cuts meet unique gems in limited quantities—meat that demands precision, respect, and expertise to reach its full potential. "noble" is meat with soul, a story of time, craftsmanship, and uncompromising care.

These are the cuts that become the heart of the evening at the table.
